

JASH CHOTHANI

Computer Engineering Scholar | Cybersecurity Researcher & Full-Stack AI Engineer

📍 Mumbai, India | 📞 +91 90049 76777 | ✉️ jashthakkar77@gmail.com | 🌐 jash-chothani | 🐙 jashchothani

🎓 EDUCATION

SVKM's Shri Bhagubhai Mafatlal Polytechnic
Diploma in Computer Engineering
Lakshdham High School
Secondary School Certificate (SSC) | Aggregate: 86.4%

Mumbai, India
2024 – Present
Mumbai, India
Completed 2024

🏢 EXPERIENCE

DeepCytes Cyber Labs UK

Remote (United Kingdom)

Cyber Security Analyst Intern | Fellowship Award ID: F0007F

May 2026 – Jun 2026

- Conducted SOC threat analysis and incident triage across enterprise telemetry; investigated IOCs and applied MITRE ATT&CK matrices to assess attack surfaces and harden defense mechanisms.
- Researched emerging threat vectors, SIEM log correlation workflows, and vulnerability discovery pipelines for UK enterprise stakeholders, delivering actionable threat intelligence and remediation reports.

💻 TECHNICAL PROJECTS

KAVACH – SOAR-XDR Threat Response Platform | Python, FastAPI, Gemini AI, SQLite, WebSockets

🐙 GitHub

- Architected a Security Orchestration, Automation & Response (SOAR) platform with XDR telemetry; engineered 16 collectors (Sysmon, DNS, registry, process, USB) and dynamic correlation scoring.
- Implemented 5 automated playbooks (ransomware, brute-force, credential theft) with rollback capability; built 30+ REST/WebSocket APIs with JWT role-based access control (SOC vs. user tier).

NetSentinel – AI Network Security & Firewall Defense | Python, Flask, Scikit-learn, Scapy, Nmap

🐙 GitHub

- Built a real-time network defense engine integrating Scapy packet sniffing, Nmap device profiling, and an Isolation Forest ML model for zero-day network anomaly and intrusion detection.
- Automated Windows Firewall rule injection for instant active threat isolation; delivered a full-stack dashboard with OTP-based 2FA, traffic analytics, and automated alerting pipelines.

BankSight AI – Explainable Financial Forecasting Engine | Python, Flask, XGBoost, LightGBM, SHAP, NLP

🐙 GitHub

- Developed an explainable AI system predicting 1-day, 5-day, and 7-day returns for top banking equities via XG-Boost/LightGBM ensembles, utilizing anti-leakage walk-forward time-series validation.
- Integrated SHAP feature attribution to interpret driving signals, real-time market sentiment scoring (VADER + custom lexicon), and historical crash similarity matching via cosine similarity.

DriveVerse – AI Vehicle Compliance & Fleet Ecosystem | Next.js 15, FastAPI, PostgreSQL, Redis, Gemini AI

🐙 GitHub

- Engineered a full-stack platform with multilingual Astra AI assistant (Gemini 2.5), AES-256 encrypted document vault, EasyOCR challan parser, and geofenced speed/zone alert telemetry.
- Selected for National Road Safety Hackathon 2026 (BIMSTEC International Track) organized by IIT Madras, BIMSTEC, and Ministry of External Affairs, Government of India.

Enterprise & Research Systems | Computer Vision, WebRTC, Cloud Systems

- AI Face Recognition:** Built dlib ResNet-128d pipeline with SVM classification, confidence metrics, and data augmentation.
- PresenterLink & Enterprise ERP:** Built LAN WebRTC screen share and client GST billing suite ([live portal](#)).

🏆 HONORS & ACHIEVEMENTS

- IIT Madras – National Road Safety Hackathon (Jan 2026):** BIMSTEC Track finalist; honored by IIT Madras, BIMSTEC & MEA, Government of India.
- Hack4Us National Hackathon (Nov 2025):** Secured **Rank 6 of 553 participants** nationally at Maharaja Surajmal Institute, New Delhi.
- Code PRISM @ Spectrum 4.0:** Certificate of Excellence (SBMP, 2025). **Ignite IT 7.0:** Hackathon Finalist & Awardee (2025).

⚙️ TECHNICAL SKILLS

Languages	Python, JavaScript, TypeScript, Java, C, SQL, HTML5, CSS3
Cybersecurity	SOAR, XDR, MITRE ATT&CK, SIEM, Scapy, Nmap, Packet Inspection, Windows Firewall API
Machine Learning / AI	Scikit-learn, XGBoost, LightGBM, SHAP, Isolation Forest, dlib, OpenCV, VADER NLP, Gemini AI
Backend & Cloud	FastAPI, Flask, Django, Node.js, Express.js, AWS (Lambda, API Gateway), Docker, REST APIs
Frontend & Storage	Next.js, React, WebSockets, WebRTC, Tailwind CSS, PostgreSQL, Redis, MySQL, MongoDB, SQLite

🌟 CERTIFICATIONS & SPOKEN LANGUAGES

Certifications: JPMorganChase SWE (Jan '26) | BCG GenAI (Sep '26) | J&J Robotics (Sep '26) | Anthropic Claude 101 & Code 101
Spoken Languages: English (Professional), Hindi (Fluent), Gujarati (Native), Marathi (Working proficiency)
